

The information below represents average container sizes and limitations for steam-ship line equipment. There could be variances in the dimensions between some containers and the numbers below. Additionally, these numbers represent the containers' limitations; in many cases state laws further limit the weight capacity of these containers for over-the-road transport.

20' Container

Inside Length

19' 4.25"

Inside Width

92.5"

Inside Height

94"

Weight Restrictions

38,000

Pallets

9-10

40' Container

Inside Length

39' 5.69"

Inside Width

92.5"

Inside Height

94"

Weight Restrictions

43,500

Pallets

20

40' High Cube Container

<u>Inside Length</u>	<u>Weight Restrictions</u>
